informatie voor patiënten

# Transplantatiedagboekje volwassenen

Naam .....

Type operatie .....

Adres .....

.....

.....

Datum operatie .....

Tel. ....

Bloedgroep en rhesusfactor .....

## GEBRUIKSAANWIJZING

Het is de bedoeling dat u dit dagboekje meebrengt telkens u naar het ziekenhuis komt (zowel bij een consultatie als bij een ziekenhuisopname) en dit toont aan de arts of de verpleegkundige.

In dit dagboek wordt een weekoverzicht voor de medicatie, een weekoverzicht voor de parametercontrole en ruimte voor vragen, bemerkingen en notities opgenomen.

U legt dit boekje thuis best samen met een balpen naast de telefoon. Zo kunt u wijzigingen in de therapie die telefonisch worden doorgegeven, meteen invullen.

### **Medicatie**

- ✓ De medicatie en juiste dosis wordt genoteerd.
- ✓ U noteert het tijdstip van inname.

## Parametercontrole

- **Temperatuur:** u noteert elke ochtend uw temperatuur.
- **Gewicht:** u weegt zich elke ochtend in dezelfde omstandigheden (nuchter en in nachtkleding).
- **Bloeddruk:** wordt dagelijks gemeten.
- **Urinedebiet:** 24 uur-urinedebiet wordt verzameld de dag voor de consultatie.

## Meer info of vragen?

Neem contact op met Eva Vanhoutte:
